

A collection of cartoon bees with yellow and black stripes, some with wings spread as if flying, and others with zzz symbols above their heads indicating they are sleeping. They are scattered around the top of the page.

# BEE SAFE

If you are being hurt at home or at school, you are not alone.

Always remember it is not your fault!

Have a code word you share with your friends or neighbors when you are not feeling safe.

Talk to someone you trust and keep talking until someone listens. Even if the first person you tell doesn't help you... someone will! Keep talking until someone listens.

A safe person can be your parent, a teacher, a neighbor, a friend's parent, your counselor or anyone you trust...Just tell someone!

# BEE SAFE

If you are being hurt at home  
or at school, you are not alone.

Stay out of the fight!  
Call 911!

Sometimes even nice people and  
people we love do bad things.

Sometimes people need help to  
learn right from wrong.

Express your feelings! It's ok to be  
sad, mad and hurt. Share your  
feelings.

My safe person: \_\_\_\_\_
